

Installation Guide

1. Insert the pump base through the mounting hole. Make sure the base is sitting on the rubber washer.
2. Install the rubber washer and lock nut from below. Tighten the lock nut to secure the pump base.
3. Attach the plastic bottle to the base. Do not over tighten the bottle.
4. Fill bottle with liquid from the top.
5. Attach the tube to the pump body and insert the assembly into the pump base.
6. Prime the pump and it is ready to use.
